

Cliente de BitTorrent

Grupo Crab Rave - 1er Cuatrimestre 2022

- ❖ Semorile, Gabriel
- ❖ Rizzo Ehrenbock, Gonzalo
- ❖ Nicolini, Franco
- ❖ Torres Dalmas, Nicolás

Agenda

- ❖ Introducción
- ❖ Arquitectura
- ❖ Procesamiento de .torrent
- ❖ Comunicación con el Tracker
- ❖ Comunicación con un Peer
- ❖ Multithreading
- ❖ Descarga de una pieza
- ❖ Modo Servidor
- ❖ Logger
- ❖ UI
- ❖ Q&A

Introducción

BitTorrent es un protocolo para descargar y distribuir archivos a través de Internet.

A diferencia de la relación cliente/servidor tradicional, en la que los descargadores se conectan a un servidor central,

los participantes en la red BitTorrent, llamados peer, descargan fragmentos de archivos entre sí. Es por esto que su protocolo se llama peer to peer.

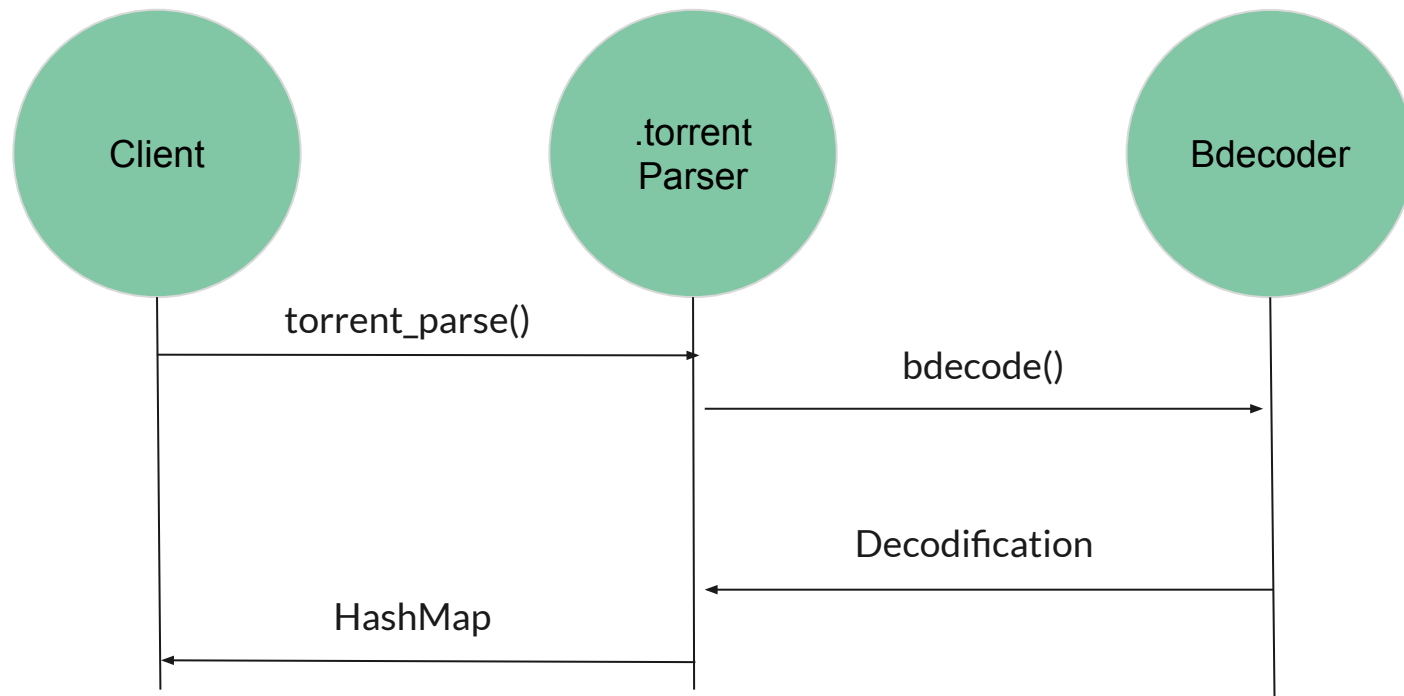

A cartoon illustration of a smiling orange crab. The crab is facing forward, has large black eyes, and a small black smile. It has two large pincers on its left side and four legs visible on its right side. The background is a light gray gradient.

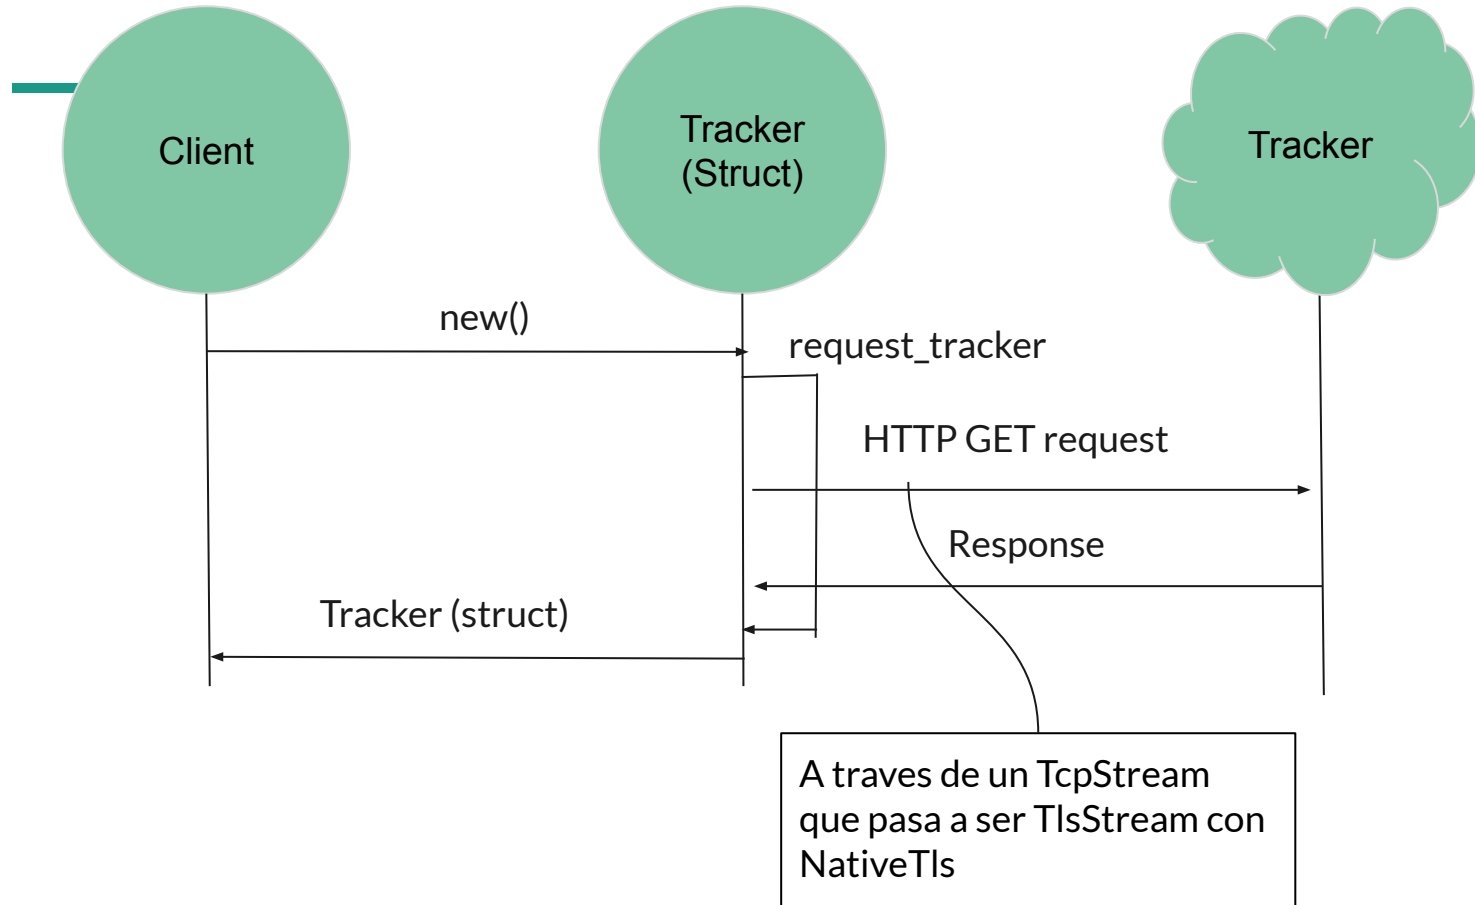

El archivo .torrent, su procesamiento y lectura

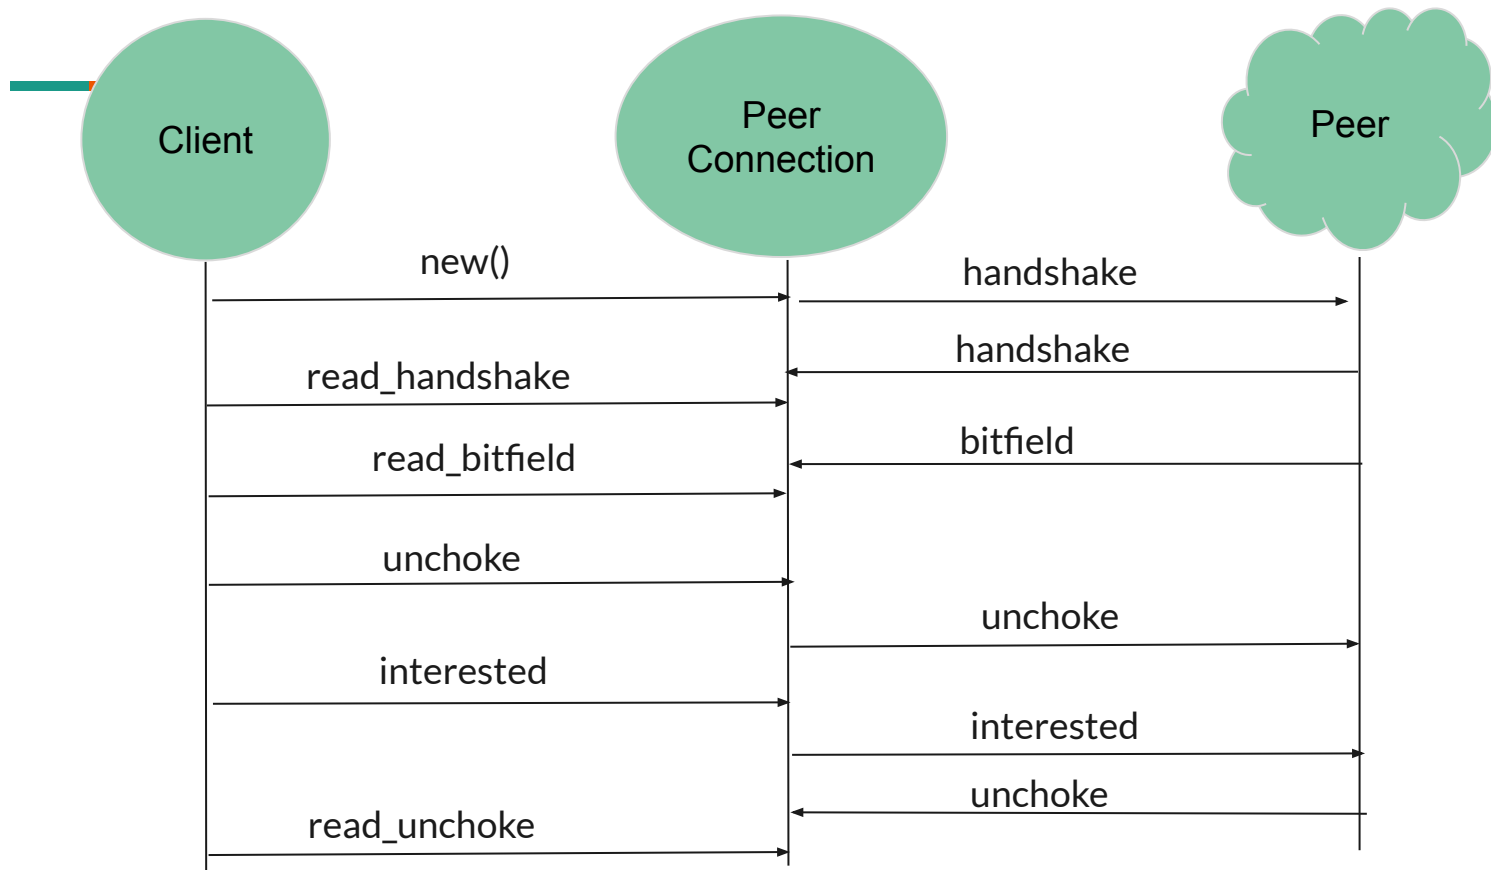

Para comenzar a descargar necesitamos un archivo .torrent, para poder obtener la información del tracker (Url Announce) y conectar con el.

Comunicación con el Tracker

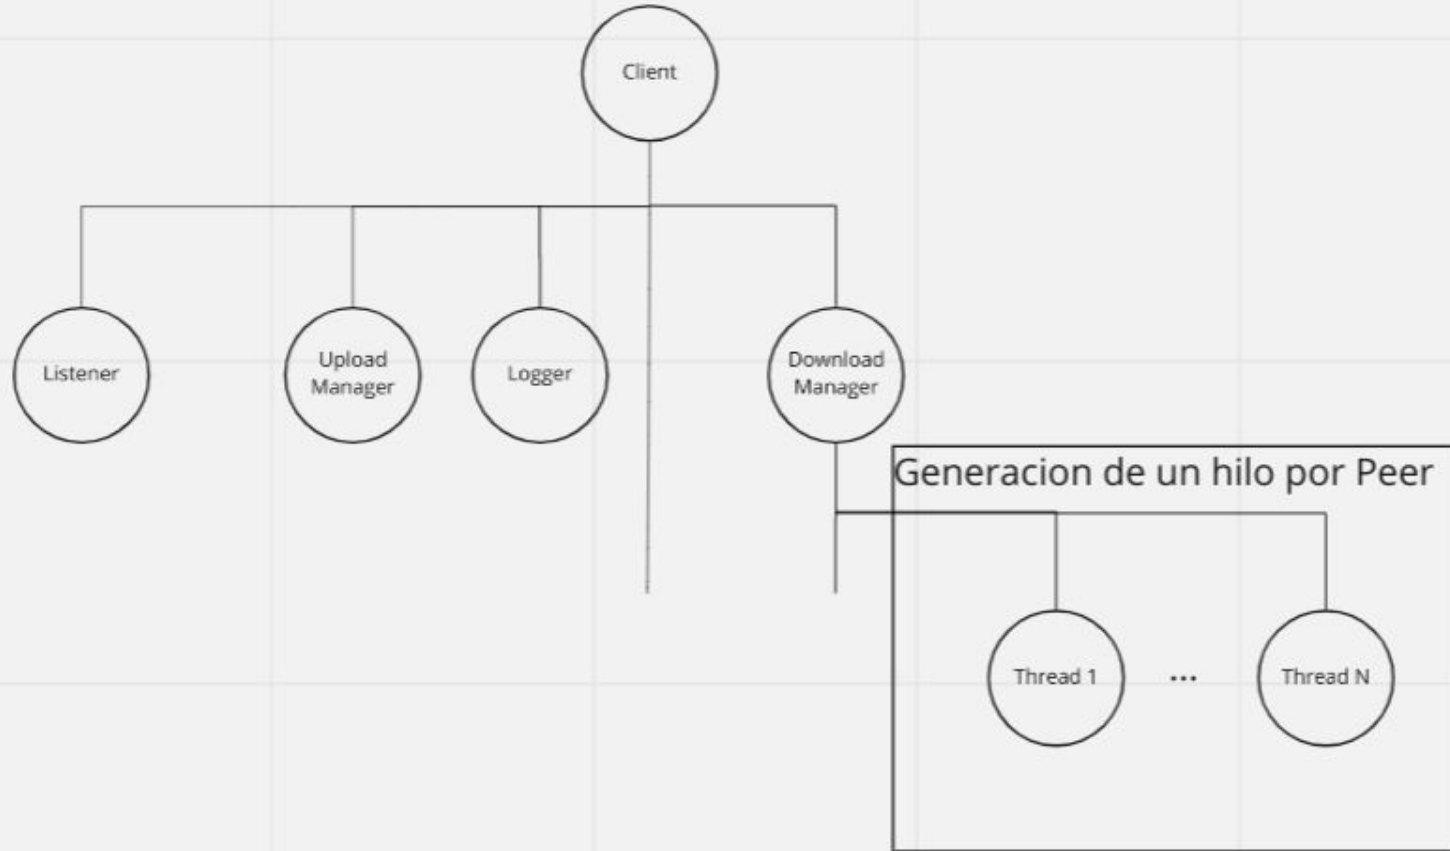

Comunicación con un Peer

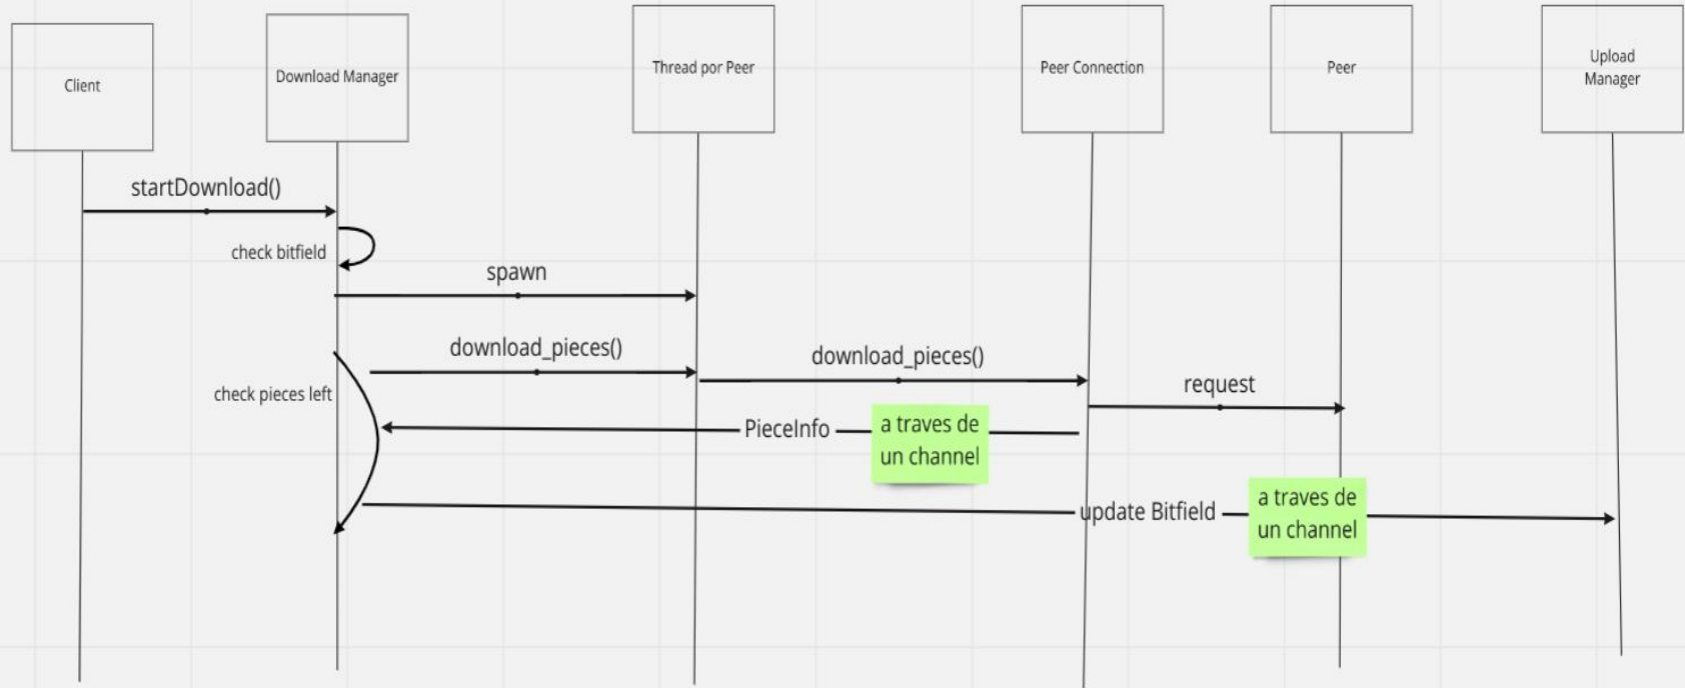

Multithreading - Principal

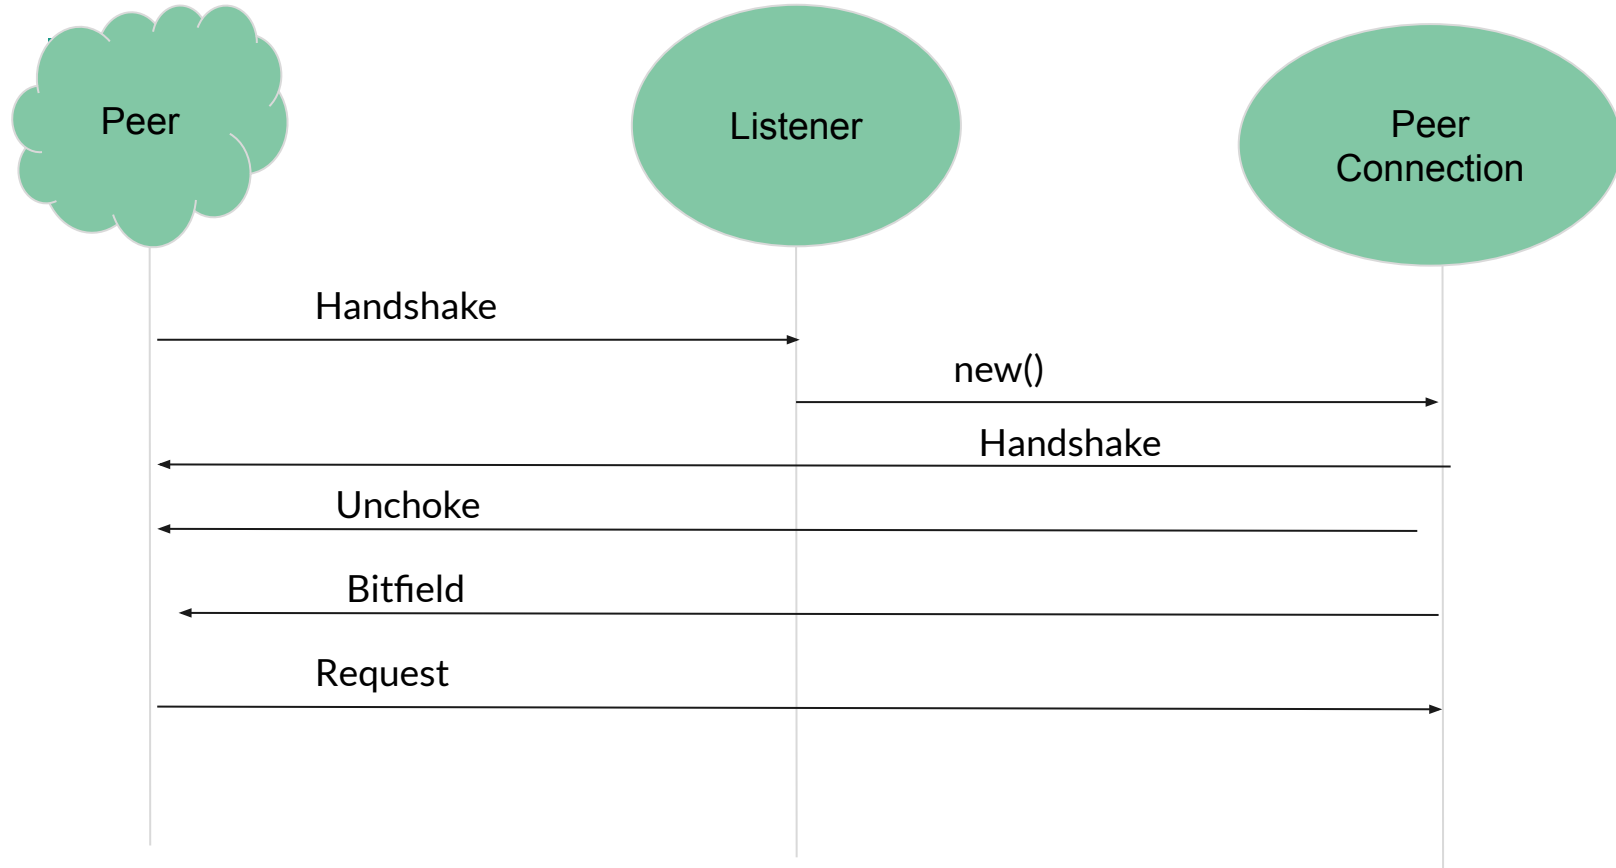

Multithreading - por Client

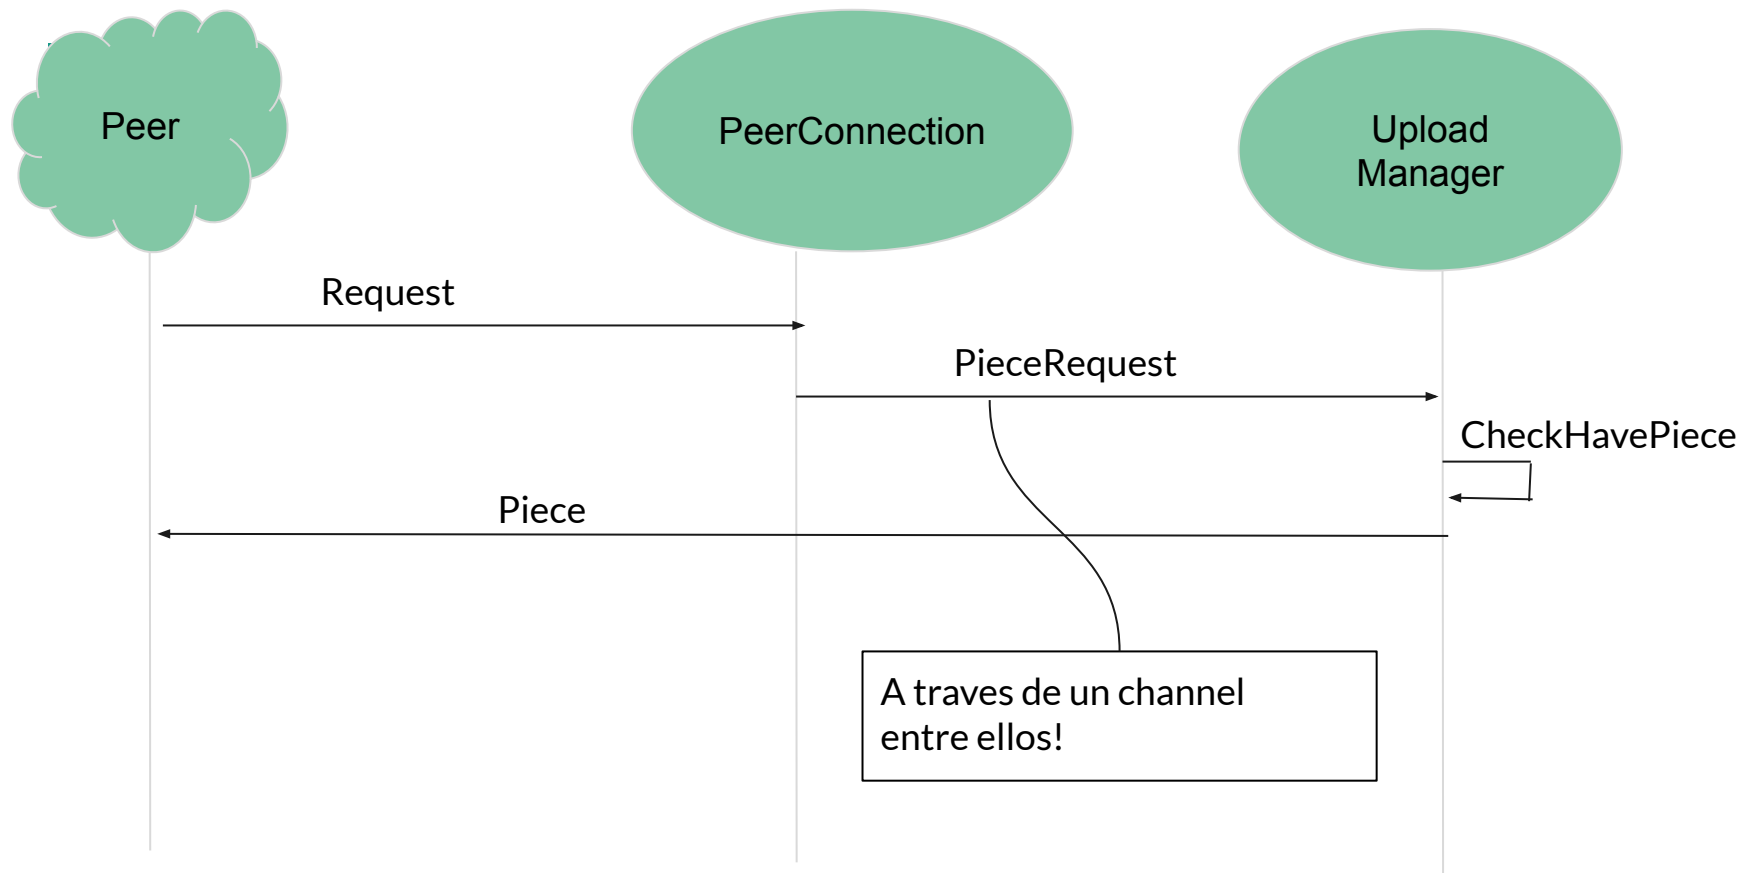

Download Piece

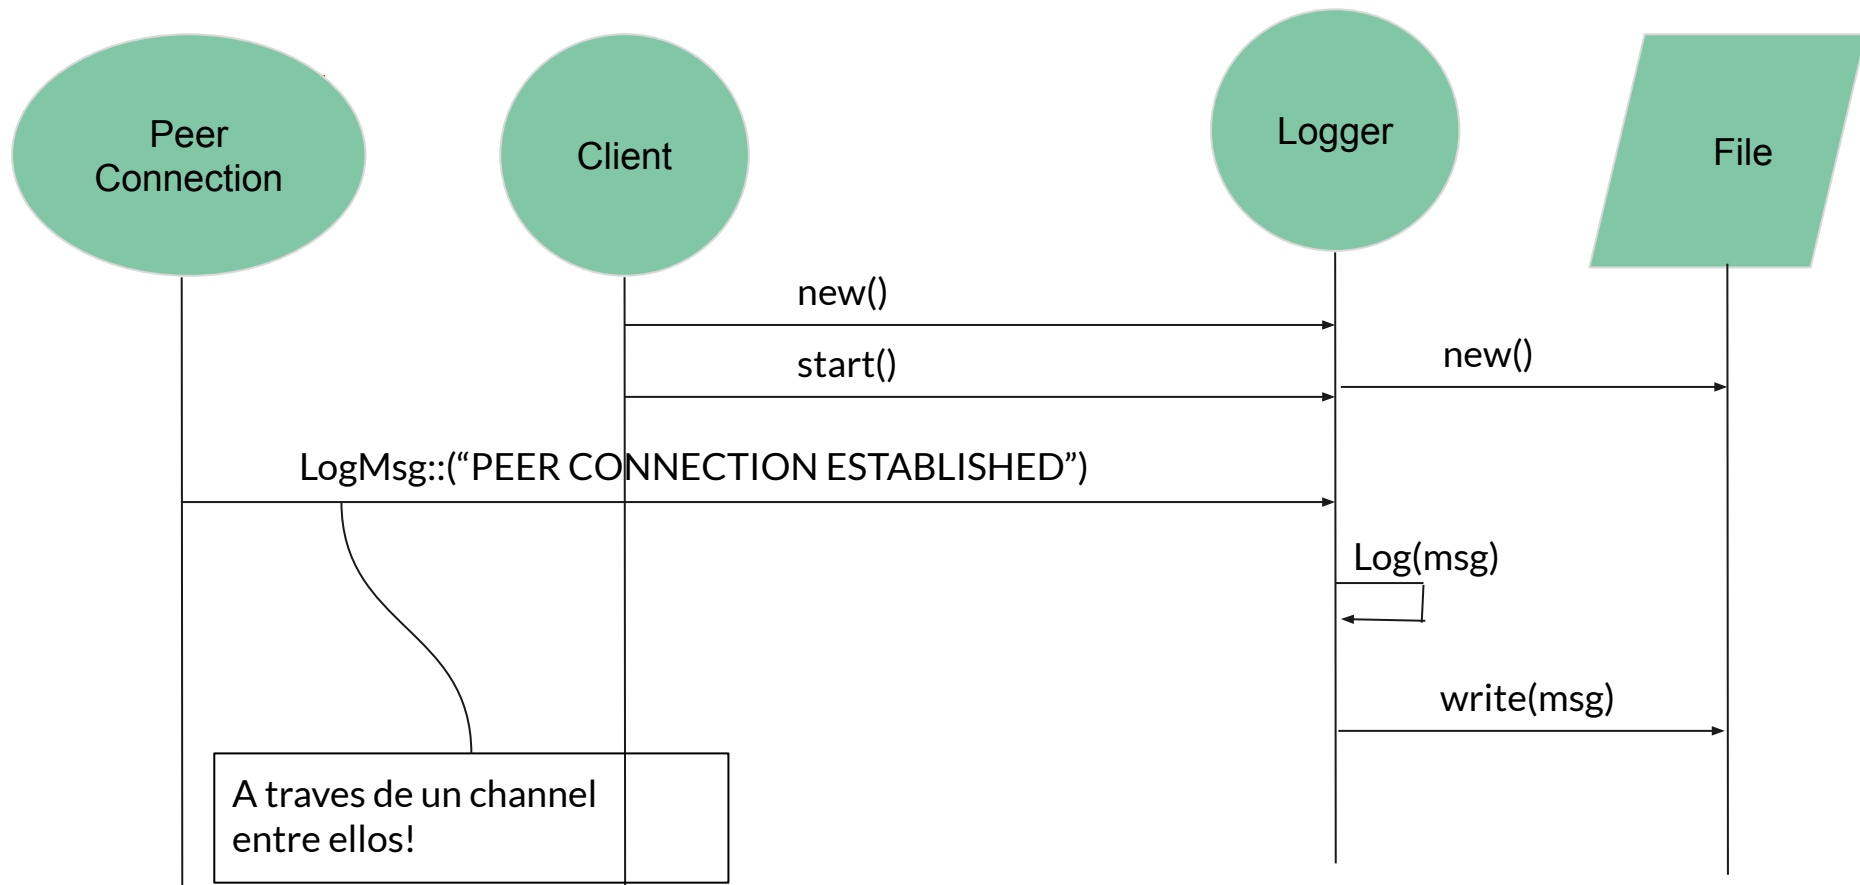

Modo Servidor: El Listener

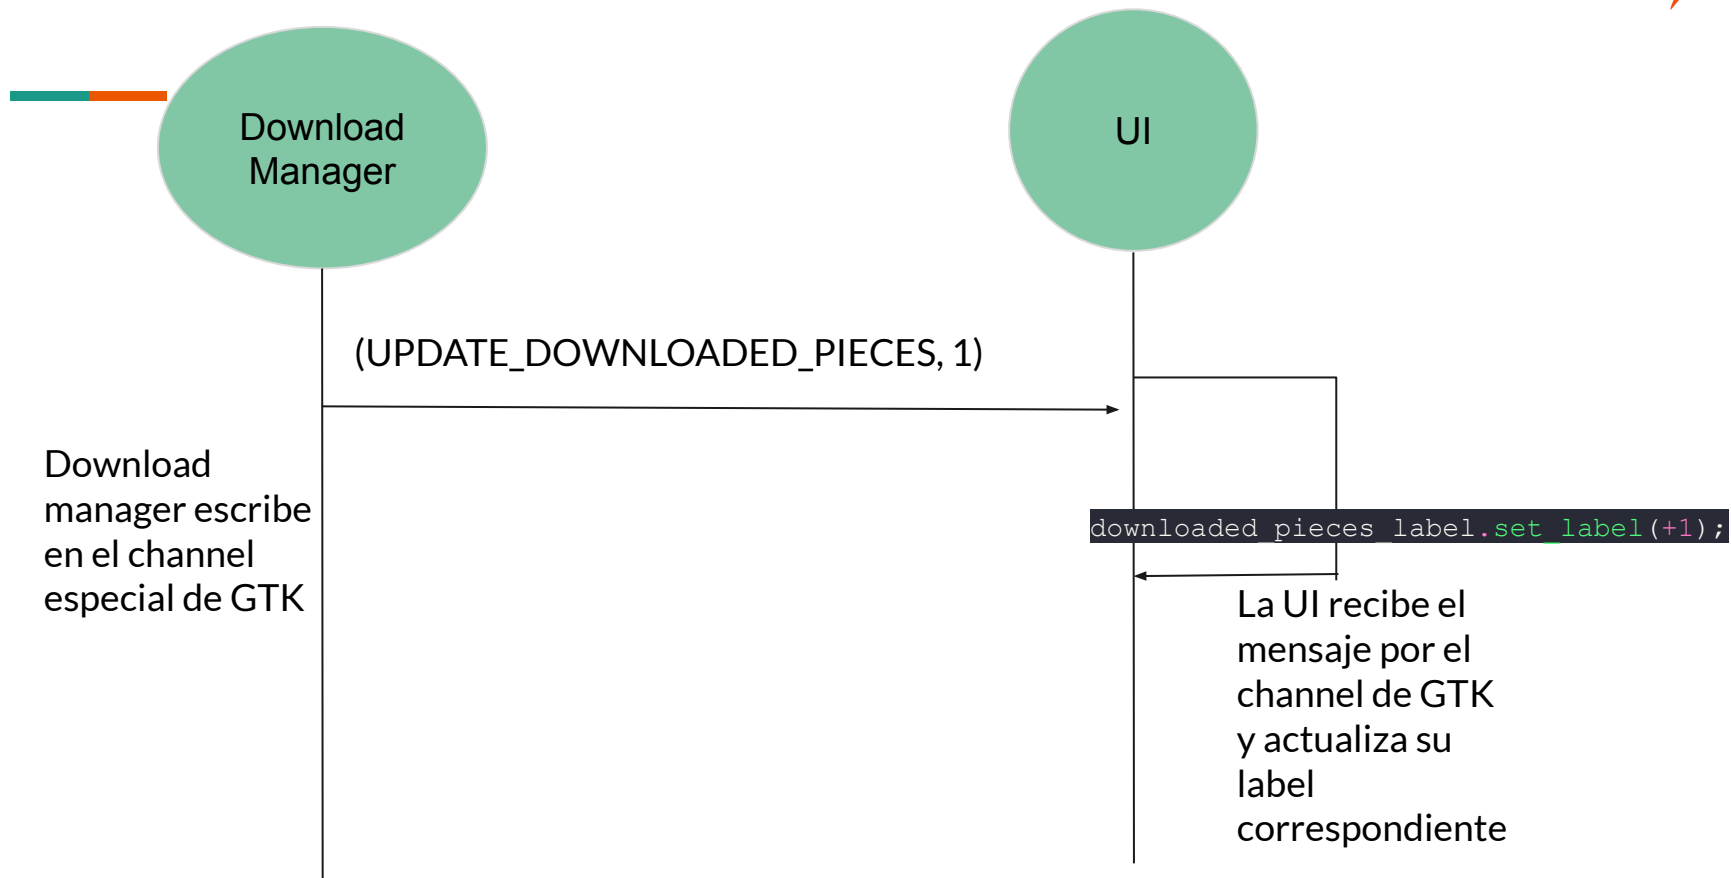

Modo Servidor: El UploadManager

Logger

Pestaña Info General

Bittorrent Client - CrabRave

ubuntu-22.04-desktop-amd64.iso.torrent

ubuntu-21.10-desktop-amd64.iso.torrent
